Covers Content	The instructional content is explained thoroughly and teaches the concept or content well.	The instructional content is there, but there are some gaps	No instructional content in these lyrics.
Rhyme and Length of Lines	The lines rhyme well, and the syllables per line are consistent - similar in length and 10 syllables or less per line.	There is some rhyme, but there are spots where there's not... and the lines are random in length. Will be hard to sing or rap.	There's little rhyme in this and lines are way too long (or short). Hard to imagine this being sung or rapped with any success.
Long enough to sing or rap	The lyrics seem well-written and should cover at least 2-3 minutes in singing/rapping length.	The lyrics are pretty short, probably will be sung or rapped in under 2 minutes.	Lyrics are so short that this will probably only take about 30 seconds to perform.
